👤 PROFESSIONAL SUMMARY

Enthusiastic and motivated Engineering student with a strong foundation in programming, data analysis, and problem-solving. Skilled in Python. Experienced in building AI and automation projects, and doing a course complete ML and data science in GFG. Eager to apply my skills and learn continuously to contribute to innovative tech solutions.

🎓 EDUCATION

Vishnu institute of technology, 2021 – 2025 | Bhimavaram, India
B.Tech - Electronics and communication engineering

🧠 SKILLS

Programming languages — Python, **Data Analysis and Visualization** — Numpy, Pandas, Matplotlib, Seaborn, **Machine learning & AI** — Scikit-learn, Supervised Learning, **Development & Deployment tools** — Jupyter notebook, Google Colab | Visual Studio code, PyCharm | Git/GitHub (version control), **Soft Skills** — Analytical Thinking, Team Collaboration, Leadership, Problem Solving

📁 PROJECTS

Predicting house prices, *Machine Learning, supervised learning*

- Performed data cleaning, EDA, normalization, and regression modeling on real-world housing data.
- Achieved accurate predictions using Linear Regression with R^2 and RMSE as evaluation metrics.
- Implemented feature scaling and residual analysis to enhance model performance and interpretability.
- Saved the trained model using pickle for future deployment.

Sugarcane Production, *Data Analysis*

- Analyzed global sugarcane production data across countries and continents using univariate and bivariate analysis.
- Conducted correlation analysis and visualized trends in production, yield, and acreage using heatmaps and plots.
- Provided actionable insights on regional production efficiency and agricultural patterns through data visualization.

📖 COURSES

Complete Machine learning & Data Science, *Geek for Geeks* 11/2024 – 11/2025
Python, SQL, EDA, Machine Learning, Deep Learning, Gen AI, NLP, Image Processing, Power BI, Tableau, Excel, Web Scraping, Projects

Python programming complete beginners course, *Udemy* 2024
Mastered Python basics including data types, loops, functions, and oops.
